

India's power demand to rise by 5-5.5% in FY27, says Icra

New Delhi: Rating agency Icra on Thursday said power demand will rise by 5.0-5.5% in 2026-27 as against a tepid 1% growth in 2025-26, supported by continued momentum in industrial and commercial activity. Its outlook for the power distribution segment remains negative.**PTI**
